PRODUCTION

Our production times vary on a project-to-project basis. Here is a quick guide to what you can expect based on project complexity.

Product Complexity	Est. Production Lead Times	Minimum Order Quantities (MOQs)
Standard Products <ul style="list-style-type: none">- With Logo- No Prints- Simple Designs	1 Week - 2 Weeks	0 - 25 Units
Personalised Products <ul style="list-style-type: none">- With Logo- Custom Print- Custom Designs	3 Weeks - 5 Weeks	100 - 200 Units
Unique Products <ul style="list-style-type: none">- Custom Design- Custom Materials- Custom Features- Custom Colours	4 Weeks - 6 Weeks	250 - 500 Units

Please note that these are not strict guides and may vary. You can talk to us to get a more accurate estimation on production times.

For complex products, MOQs in general are higher. This is due to the necessary preparation in manufacturing a more specific product.

Production times may also be reduced significantly after your first order. This is due to the fact that once we have the infrastructure in place for your product, we are able to reuse it.
